BG Fuels' response to COVID-19

At BG Fuels, the health and well being of our customers, employees, retailers, attendants and partners is of utmost importance and our key priority. We are carefully watching the World Health Organization and local health authorities for the most up to date information. These experts guide us all on how best to minimize the spread of coronavirus COVID-19.

Each BG Fuels location has and will continue to take precautionary measures to help keep our guests and our team members safe. These measures are focused on ensuring that high-touch surfaces are regularly and thoroughly disinfected and our team members remain protected.

Our customers rely on us daily to provide them with the gas and convenience items they need, and we are committed to providing that in a safe and reliable way. As the response to COVID-19 varies across Canada, please note our approach to protect both customers and our team members may vary. We will follow guidance made by local governments and adapt based on each community's need.

We appreciate your understanding and support as we remain committed to providing the gas and convenience goods and services required during this uncertain time. Should there be additional communications required, we will post across all our points of communication. Thank you for your patience and understanding.
