

**NEWS RELEASE**

**16 July 2020**

## **BG Fuels to operate as Greenergy following merger**

Following the merger of Greenergy with BG Fuels in February 2020, BG Fuels will operate as Greenergy.

The combined Canadian business now has significant capability and expertise spanning the whole supply chain, from fuel origination, infrastructure and supply to gas and convenience retailing. The retail brand portfolio includes both company-owned and independent retailer sites, operating under the Mobil, Mr. Gas, Waypoint, Breakaway and Inver brands.

Christian Flach, CEO of Greenergy said, “Over recent months our priority has been to support our customers through the challenges associated with COVID-19, while also moving swiftly to integrate our combined Canadian operations into one team. As a fully integrated downstream fuels business, we are now best-placed to extend our presence across Canada and deliver on our ambitious growth strategy in the years ahead.”

ENDS

## **Notes to editors**

### **Greenergy**

[www.greenergy.com](http://www.greenergy.com)

In business for over 25 years, Greenergy is an established supplier and distributor of transportation fuels, and the UK's largest fuels supplier. Internationally, it supplies over 19 billion litres of fuel annually to supermarkets, oil companies, fuel wholesalers and retail and commercial customers. It manages fuel supply chains from refinery gates to customer sites – importing, storing, blending and distributing fuel and managing stock levels for customers.

Greenergy's Canadian operations were integrated with BG Fuels following their merger in February 2020. Under the new structure, Joe Calderone of BG Fuels now heads up the Canadian Retail operations, bringing together the management of all retail sites within the portfolio under the brands: Mobil, Mr. Gas, Waypoint, Breakaway and Inver. Mike Healey of Greenergy Fuels is responsible for all Commercial and Business Development and Kirby Tremblay now oversees Trading, Supply and Operations across Canada.

Greenergy continues to invest in strategically important Canadian infrastructure assets with fuel distribution terminals in Toronto, Hamilton, Thunder Bay and Johnstown, bringing new supply facilities closer to the end-customer. It is also expanding sales to the Canadian retail sector, offering independent fuel retailers a choice of brands.
